## Event Guidelines

### Plein Air Requirements (see prospectus for more details)

- Plein air painting refers to the practice of painting outdoors, directly in nature, thereby capturing the nuances of natural light and the landscape or scenes in real-time. Originating from the French phrase *en plein air*, meaning "in the open air," this method emphasizes direct observation of natural light, colors, and atmospheres, giving the paintings an authentic sense of place and time.
- All artworks must be created entirely outdoors, on location, with the subject visible to the artist throughout the painting process.
- Additionally, if the painted subject is of a building, some element of the exterior of the building must be included with the artwork.
- A minimum of 95% of each painting must be created on-site in the true spirit of plein air painting. Only minor adjustments may be made in the studio.
- All paintings must be framed, signed, with current year's stamp visible and securely wired (no alligator hangers) for hanging.
- Framed paintings cannot exceed 24" in any direction.
- Media may include oils, acrylics, watercolors, pastels and gouache.

- If the artist is found standing outside the boundaries (see maps) and/or if artists intentionally impedes the sightline of another artist.
